

CEDTS Reporting Directions

The new website is at <http://www.calagpermits.org>. The grower/applicator can log in to the site using the username and temporary passcode obtained from the Ag Commissioner's Office – you will need to change your password the first time you log in.

You can access the public webuser guide from the “Help” link on the top of the CalAgPermits interface.

Once in the main page, you can click on the “Upload CEDTS File” link at the bottom left of your home page:

The screenshot shows the CalAgPermits home page with a header 'Welcome practice'. The page is divided into three main sections: 'CalAgPermits Forms', 'Submissions', and 'Did You Know?'. The 'CalAgPermits Forms' section lists several forms: 'PUR/NOI List', 'Notice of Intent Entry', 'PUR Single Job Entry', 'PUR Production Ag. Monthly Report', and 'MSPUR Non-Ag, Non-Prod Ag Monthly Report'. The 'Upload CEDTS File' link is circled in red. The 'Submissions' section shows counts for 'Notices of Intent', 'PUR Single Job Entries', 'PUR Prod Ag Monthly Reports', and 'MSPUR Reports', all of which are zero. The 'Did You Know?' section contains a paragraph about pesticide testing. A 'Useful Links' section is also present with links to 'CalAgPermits User's Guide', 'CA DPR', 'CA DPR Paper Forms', 'Licensing Information', and 'Recent News'.

This link takes you to a new form that is very similar to the existing CEDTS web site. You simply need to select your file to upload and click “Send”. The system will process your file and let you know if it was accepted or rejected, providing detailed error messages if the file is rejected. The format of the file has not changed – the system accepts CEDTS files that meet the existing CEDTS format specification.

The screenshot shows the 'CEDTS Submittal' form. The 'Transmit CEDTS File' section contains the instruction 'Browse to the file on your disk that you want to send and then press the send button.' Below this instruction, the 'Choose File' button and the 'Send' button are circled in red. The 'History' section contains the instruction 'Select the time period. Then press the history button to see the transmission history for your selection.' Below this instruction, there is a dropdown menu set to 'Past 24 Hours' and a 'History' button.

You can also use the PUR/NOI, Production Ag Monthly Report, and MSPUR Non-Ag, Non-Prod Ag Monthly Report links to enter use reports directly into the system. The Active Permits section of your home page will tell you which permits you are authorized to submit data for.
