

Fifth Program Year Action Plan

The CPMP Fifth Annual Action Plan includes the SF 424 and Narrative Responses to Action Plan questions that CDBG, HOME, HOPWA, and ESG grantees must respond to each year in order to be compliant with the Consolidated Planning Regulations. The Executive Summary narratives are optional.

Narrative Responses

GENERAL

Executive Summary

The FY 2009-2010 Action Plan: One-Year Use of Funds details the activities to be assisted by Sonoma County using Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME) and Emergency Shelter Grants (ESG) funds from the U.S. Department of Housing and Urban Development (HUD).

Priority Needs, Goals and Objectives

The overall goal of the CDBG, HOME and ESG Programs is to develop viable urban communities principally for low- and moderate-income persons by providing decent housing, providing a suitable living environment, and expanding economic opportunities. The County's 2005-2010 Consolidated Plan establishes three goals, one each in the areas of homelessness, housing and non-housing community development, to guide the County in using HUD funding to address the primary federal goals and the priority needs identified in Sonoma County. The Consolidated Plan also establishes specific objectives to address the goals.

During FY 2009-2010, the Community Development Commission will administer programs, either directly or through funding provided to other governmental or nonprofit agencies, that will benefit low- and moderate-income households and assist in the elimination of slums and blight by addressing the goals and objectives enumerated in the Consolidated Plan and summarized below.

Homelessness Goal:

To promote new and existing day centers, emergency shelters, transitional housing facilities and services that will coordinate and improve the continuum of care system for homeless residents of Sonoma County.

Note 1: Under each of the objectives listed below, the financial assistance may be provided to acquire, renovate, construct or reconstruct the facility in which services will be provided and/or to pay a portion of the delivery costs for the services to homeless persons.

Note 2: Permanent supportive housing represents one component of a fully developed continuum of care system for homeless persons, as well as a housing solution for non-homeless people with special needs. The County's specific objective for assisting permanent supportive housing development is discussed in the *Specific Housing Objectives* section of this Plan and is not repeated here.

Homeless Specific Objectives:

- S-1: Provide day center services to homeless persons, some with special needs.
- S-2: Provide emergency shelter beds for homeless persons, some with special needs.
- S-3: Provide transitional housing with supportive services to persons leaving homeless shelters or to persons who are living “on the streets”, some with special needs.
- S-4: Provide mental health, other health and social services, counseling, employment training, education, childcare, parenting education, substance abuse treatment, domestic violence intervention, self-sufficiency skills, and transportation assistance, to homeless persons living “on the streets” or in emergency shelters, including outreach to the “street” homeless and assessment of individual and family needs. Some of the assisted persons will be from special needs subpopulations.
- S-5: Provide homeless prevention services to households who are at risk of becoming homeless, some with special needs.

Housing Goal:

To increase the housing stock that is affordable, accessible and available to extremely low-, low- and moderate-income residents of Sonoma County, including special needs subpopulations.

Housing Specific Objectives:

- H-1: Develop new rental and ownership housing units that are affordable and available to extremely low-, low- and moderate-income households, some with special needs.
- H-2: Develop new housing units with appropriate supportive services that are affordable, accessible and available to extremely low-, low- and moderate-income special needs households.
- H-3: Provide tenant-based rental subsidies to make market rate housing units affordable to extremely low-income households, some with special needs.
- H-4: Provide comprehensive rehabilitation and targeted hazard mitigation assistance to make needed repairs and improvements to conventional single- and multi-family housing and mobile homes owned and/or occupied by extremely low-, low- and moderate-income households, some with special needs.
- H-5: Provide loans to eligible entities to acquire and/or rehabilitate existing multi-family housing that is affordable, accessible and available to extremely low-, low- and moderate-income households that is at risk of becoming market rate housing. The occupants of some of these assisted housing units will include special needs households.
- H-6: Provide direct fair housing education and mediation services to low- and moderate-income renter households, some with special needs.

Non-Housing Community Development Goal

To assist in creating and/or replacing infrastructure systems, public facilities and non-housing services that meet the needs of the extremely low-, low- and moderate-income residents of Sonoma County, including the homeless and special needs subpopulations.

Non-Housing Community Development Specific Objectives:

- C-1: Preserve low- and moderate-income neighborhoods and improve the quality of neighborhood-based living, including construction or reconstruction of storm/flood drain improvements, water and sewer improvements (connecting water and sewer lines to new or existing affordable housing developments, sewer mains, and rural water facilities), streets, streetlights, sidewalks, curbs and gutters (either non-existent or in need of reconstruction).
- C-2: Construct, renovate or install access modifications to meet the special needs of persons with disabilities and the elderly in accordance with the American with Disabilities Act (ADA) in public facilities, including but not limited to public parks, restrooms, youth centers, senior centers, fire stations, libraries and community recreation facilities.
- C-3: Facilitate economic integration and self-sufficiency for lower income persons through self-sufficiency programs and through job training and economic development activities to increase job opportunities.

Other Actions to be Taken During FY 2009-2010

As described further in the 2005 Consolidated Plan's Five-Year Strategic Plan, during FY 2009-2010 the Community Development Commission will also continue working to:

- 1) reduce lead-based paint hazards through its housing rehabilitation programs and take the actions necessary to comply with HUD's regulation, "Requirements for Notification, Evaluation and Reduction of Lead-Based Paint Hazards in Federally Owned Residential Property and Housing Receiving Federal Assistance";
- 2) strengthen the institutional structure that comprises the delivery system for activities to be carried out under the Consolidated Plan;
- 3) enhance the coordination between assisted housing providers and health, mental health and service agencies with the intention of fostering development of more supportive housing options for special needs populations throughout the County; and
- 4) reduce the number of poverty-level families by targeting CDBG, HOME, ESG and local funds to projects that will provide services to foster self-sufficiency, in conjunction with the provision of housing, shelter and other public facilities.

Community Development Block Grant Program (CDBG)

In FY 2009-2010, Sonoma County will receive \$1,982,367 in CDBG funds. CDBG funds will be used for housing, public services, public improvements and public facilities. Federal regulations impose a 15% maximum cap on funding to be expended for public service activities.

Administrative costs are limited to 20% of the total CDBG annual funding and program income received.

The projected uses of funds for CDBG are as follows:

Catholic Charities- Family Support Center	Public Service	Countywide	\$ 80,000
Catholic Charities- Homeless Service Center	Public Service	Countywide	\$ 25,000
Catholic Charities – Samuel Jones Hall	Public Service	Countywide	\$ 17,663
Cloverdale Comm. Outreach - Wallace House	Public Service	Countywide	\$ 10,000
CAPSC- Fair Housing	Public Service	Countywide	\$ 52,500
CAPSC- HCA Emergency Rental Assistance	Public Service	Countywide	\$ 24,898
CAPSC- Sloan House Women's Shelter	Public Service	Countywide	\$ 14,559
COTS – Services for Homeless Children/Parents	Public Service	Countywide	\$ 17,735
SAY – Coffee House	Public Service	Countywide	\$ 10,000
Sonoma Overnight Support, Inc. Shelter	Public Service	Countywide	\$ 10,000
The Living Room, Inc.	Public Service	Countywide	\$ 12,500
YWCA - Adobe Project	Public Service	Countywide	\$ 10,000
YWCA – Safe House	Public Service	Countywide	\$ 12,500
Los Guilicos Pathway ADA Imprvmnts, Phase II	Public Improve.	Unincorp. Area	\$ 70,000
Sidewalk Access ADA Improvements	Public Improve.	Cotati	\$ 81,602
Sidewalk Access ADA Improvements	Public Improve.	Healdsburg	\$ 70,632
Wall St. Nghbd.Sidewalk ADA Improvements	Public Improve.	Windsor	\$123,169
Ragle Park Playground ADA Improvements	Public Improve.	Unincorp. Area	\$ 65,000
Bwana Collection System Replacement Project	Public Improve.	Unincorp Area	\$125,000
DSLHC-Housing Access Modification Program	Housing Related	Countywide	\$ 61,637
Housing Rehabilitation Program	Housing Related	Cloverdale	\$ 65,632
Housing Rehabilitation Program	Housing Related	Rohnert Park	\$ 75,602
Hollyhock Mutual Self-Help Homes	Housing Related	Sebastopol	\$ 87,384
Sonoma Highway Affordable Housing	Housing Related	Sonoma	\$100,601
So. Co. CDC Housing Rehab. Program	Housing Related	Countywide	\$362,280
Administration			<u>\$396,473</u>
TOTAL OF CDBG PROJECTS			\$1,982,367

Home Investment Partnerships Program (HOME)

In FY 2009-2010, Sonoma County will receive \$1,253,122 in HOME Program funds. Federal regulations require a minimum of 15% of each year’s HOME allocation to be set-aside for projects sponsored by Community Housing Development Organizations (CHDO’s). In addition, funding in an aggregate amount not to exceed \$50,000 for operational support for approved Community Housing Development Organizations (CHDO’s) is approved as an eligible activity. Administrative costs are limited to 10% of the annual HOME allocation and program income received. Funding in the amount of \$100,000 in FY 07-08 for Healdsburg Family Housing was reprogrammed during FY 08-09 to HOME TBA. Per local policy, FY 09-10 TBA funding was reduced by \$100,000 and FY 09-10 Rental Housing Development funding increased by \$100,000 and was allocated as shown in the chart below.

Leverage and Matching of Funds

The HOME regulations require a 25% match for all HOME funds used, excluding HOME funds used for CHDO operational expense, HOME American Dream Downpayment Initiative (ADDI) assistance, and general program administration. The Commission estimates that the leveraged funds will generate match sufficient to cover the match obligation for the HOME loans to the rental housing projects. Any residual match will be credited against the Tenant Based Rental Assistance (TBA) program match obligation. Any balance of the TBA match obligation will be drawn from the previously accumulated match that the Commission has earned.

The projected uses of funds for HOME are as follows:

BHDC - Windsor Redwoods	Housing Develop.	Windsor	\$ 310,756
CHSC-Operating Funds	CHDO Operational	Countywide	\$ 50,000
CHSC–Guerneville Fifth St. (CHDO project)	Rental Develop.	Unincorp.	\$ 187,969
PEP-Shiloh Senior Apartments	Rental Develop.	Windsor	\$ 115,180
Sonoma County Housing Authority Administration	Rental Assistance	Countywide	\$ 463,905
			<u>\$ 125,312</u>
TOTAL OF HOME PROJECTS			\$1,253,122

The projected use of funds for HOME ADDI is as follows:

Sonoma County did not receive FY 09-10 HOME ADDI funds. Previously received HOME ADDI funds may only be used to assist low-income persons become first-time homebuyers. ADDI funds can be used for down payment assistance towards the purchase of single-family housing by low-income first-time homebuyers, and for rehabilitation that is completed in conjunction with a home purchase assisted with ADDI funds.

Emergency Shelter Grants Program (ESG)

Sonoma County will receive \$87,647 in FY 2009-2010 ESG funds. Federal regulations impose a maximum available for both essential service and homeless prevention activities at 30% of the current allocation (\$26,295 each). The remainder of the allocation (\$35,057) must be used to fund homeless programs that deal directly with provision of emergency shelter. This year, two proposals are recommended for funding, a number appropriate to the 5% staff administration allowance of \$4,382.

Matching Funds

The ESG regulations require grantees to provide a 100% match for all ESG funds used. The projects listed below will provide sufficient match through funds from other sources such as contributions, client fees, the City of Petaluma, United Way, various foundations, and other state and federal programs.

The projected uses of funds for ESG are as follows:

COTS-Svs. for Homeless Children/Parents	Shelter/Services	Countywide	\$ 32,265
COTS-Mary Isaak Center Administration	Shelter/Services	Countywide	\$ 51,000
			<u>\$ 4,382</u>
TOTAL OF ESG PROJECTS			<u>\$ 87,647</u>

Contingency Projects

Projected Use of Future CDBG and HOME Program Income and Reprogrammed Funds:

The amount estimated for CDBG program income is \$100,000. Up to twenty percent of CDBG program income will be used for the Community Development Commission's administration of the CDBG program. CDBG program income and/or reprogrammed funds derived from activities under the County-Owned Public Facility/Improvements and Countywide and Unincorporated Area categories will be used to fund the Countywide Housing Rehabilitation program. CDBG program income and/or reprogrammed funds derived from activities under the City/Town category will be used to fund housing rehabilitation projects within those municipalities. Contingency projects in the CDBG Housing Rehabilitation category will be funded in the order of need.

The CDC does not expect to receive HOME program income. If any should come in, up to ten percent of HOME program income will be used for the Community Development Commission's administration of the HOME program. Program income derived from homebuyer activities will be used to assist new eligible homebuyers to purchase previously assisted homes in either the incorporated or unincorporated areas of the County. Please see the first paragraph of page 4 for reprogrammed funds from FY 07-08. There is no carryover of HOME funds.

Evaluation of past performance

Each year HUD assesses the County of Sonoma's management of CDBG, HOME and ESG program funds, the County's compliance with the County's Consolidated Plan, and the extent to which the County is preserving and developing decent affordable housing, creating a suitable living environment and expanding economic opportunities. Overall, the County has performed satisfactorily in addressing its priority needs and carrying out the programs described in the Consolidated Plan.

General Questions

Error! Reference source not found.Action Plan General Questions response:

Question 1: Describe the geographic areas of the jurisdiction (including areas of low income families and/or racial/minority concentration) in which assistance will be directed during the next year. Where appropriate, the jurisdiction should estimate the percentage of funds the jurisdiction plans to dedicate to target areas.

This FY 2009-2010 Action Plan, Year 5, encompasses activities undertaken by the County of Sonoma, as well as the seven municipalities comprising the Urban County: Cloverdale, Cotati, Healdsburg, Rohnert Park, Sebastopol, Sonoma, and Windsor. Five housing development proposals have been selected for funding, one in Sebastopol, one in Sonoma, two in Windsor and one in the unincorporated Guerneville area of Sonoma County. The balance of the funding was for public improvements in both the unincorporated and incorporated areas of Sonoma County, services for homeless individuals and families, tenant-based rental assistance and housing rehabilitation activities that serve low- and moderate-income individuals and families countywide. Maps representing the location of projects recommended for funding under this FY 2009-2010 Action Plan are included in the Year 5 Additional Files section of this Action Plan.

Question 2: Describe the basis for allocating investments geographically within the jurisdiction (or within the EMSA for HOPWA) (91.215(a)(1)) during the next year and the rationale for assigning the priorities.

The Urban County jurisdictions do not pre-determine the use of CDBG, HOME and ESG funding in Sonoma County. The Sonoma County Community Development Commission issues an annual Request for Proposals (RFP). All eligible proposals submitted are considered for funding within the context of the broad goals and objectives established in the Strategic Plan. Because the Commission regularly receives requests for funding that far exceed the level of CDBG, HOME and ESG dollars available, the RFP process is highly competitive. Funding recommendations made under this FY 2009-2010 Action Plan were made in response to that RFP process that is largely driven by the capacity of service providers and developers that make up the delivery system in Sonoma County. Consideration was given to the overall readiness of the project, efficiency of the program and the degree to which the project or program addressed the priorities and objectives defined in the Strategic Plan.

Question 3: Describe actions that will take place during the next year to address obstacles to meeting underserved needs.

All of the projects recommended for funding under this FY 2009-2010 Action Plan address one or more of the obstacles to meeting underserved needs delineated in the Strategic Plan. Projects and programs recommended for funding demonstrate efficiencies to best utilize the decreasing amounts of funding available to support their endeavors. Affordable housing projects recommended for funding are based upon overcoming regulatory barriers and provide or preserve both rental and homeownership housing opportunities for low- and moderate-income persons. Tenant-based rental assistance, emergency rental assistance, family self-sufficiency and fair housing activities enable low- and moderate-income individuals and families to obtain and retain rental housing in the high-priced market in Sonoma County. As the high cost of housing is a contributing factor in the County's homeless population, the emergency shelter, transitional housing and supportive services recommended for funding assist those in need to move through the continuum of care towards the ultimate goal of attaining stable, permanent housing.

Question 4: Identify the federal, state, and local resources expected to be made available to address the needs identified in the plan. Federal resources should include Section 8 funds made available to the jurisdiction, Low-Income Housing Tax Credits, and competitive McKinney-Vento Homeless Assistance Act funds expected to be available to address priority needs and specific objectives identified in the strategic plan.

A variety of financial resources are available to address the priority housing needs and specific housing objectives identified in the Strategic Plan. The following is a brief summary of some of the resources that can be utilized either directly through the Commission or through other public or private entities.

Federal Resources

HUD Section 8 Housing Choice Voucher Rental Subsidies

The Commission's Housing Authority operates this program, which will provide approximately \$21.3 million in rental subsidies to more than 2,720 extremely low- and low-income families during FY 2009-2010.

HOME Program

Sonoma County is a HOME participating jurisdiction and will receive \$1,253,122 million of HOME funding in FY 2009-2010. Sonoma County's HOME Program targets HOME funds for rehabilitation, acquisition and development of affordable rental housing and the provision of tenant-based rental assistance to specified special needs households.

HOME American Dream Downpayment Initiative (ADDI)

In FY 2009-10, Sonoma County did not receive additional ADDI funds. As described on pages 24 through 25 of this Action Plan, the County will lend the previously awarded ADDI funds to eligible low-and moderate-income first-time homebuyers to make downpayments and pay closing costs. Given the modest amount of ADDI funding available to the County and the program's even more limited administrative funding, the County has integrated the ADDI program with existing first-time homebuyer programs.

Community Development Block Grant Program (CDBG)

During FY 2009-2010, Sonoma County will receive just under \$2 million of CDBG entitlement funds, a portion of which will finance housing and housing related activities.

Emergency Shelter Grants Program (ESG)

During FY 2009-2010, the County will receive \$87,647 of ESG funds that will finance administrative and operating costs of emergency homeless shelters and homeless prevention programs.

McKinney Homeless Assistance

During FY 2009-2010, the County expects to receive \$1,868,910 of funding available from several McKinney Homeless Assistance programs, including the Supportive Housing and Shelter Plus Care programs. The funds are available only in jurisdictions with approved Continuum of Care Plans addressing the housing and service needs of homeless persons.

Low Income Housing Tax Credits

Sonoma County provides CDBG, HOME and other financial assistance to rental housing developments that receive allocations of federal Low Income Housing Tax Credits. Proceeds from the sale of the tax credits provide a significant percentage of the permanent financing for rental housing projects. Tax credits are expected to finance \$9.9 million of the permanent financing for the Windsor Redwoods project, a \$25.7 million dollar 65-unit multifamily rental housing development for low- and very-low income households. Petaluma Ecumenical Properties (PEP) is building Shiloh Senior Apartments, an 80-unit project, at a cost of \$18.4 million and is expected to receive \$12.8 million in permanent financing for their low- and very-low affordable rental housing component of a mixed-use project. Community Housing Sonoma County (CHSC), in Partnership with Burbank Housing Development Corporation (BHDC), will be applying for financing with tax credits for their Guerneville 5th & Mill project, now known as Fife Creek Commons, a \$19.7 million project with \$13.7 million in anticipated tax credit funding for the 47-unit affordable housing rental project.

HUD Section 811/202

HUD allocates Section 811 or 202 funds to projects that will develop affordable rental housing for persons with disabilities and/or seniors. Any County funding for those same projects will be coordinated with this funding.

HOPWA

The Sonoma County Health Services Department will administer any Housing Opportunities for Persons with AIDS (HOPWA) from the State of California to provide a variety of housing assistance to persons with HIV/AIDS and their families.

Federal Emergency Management Agency (FEMA)

Since program inception after the Presidentially-declared disastrous flood events of 1995 and 1997 through the end of fiscal year 2007-2008, the County has expended over \$9 million of FEMA Hazard Mitigation Grant Program (HMGP) along with nearly \$4.2 million in owner contributions and other grant funds to elevate 216 homes in the flood-prone lower Russian River area. During FY 2009-2010, the County expects to elevate up to seventeen at-risk properties in the area utilizing two grants from the FEMA Flood Mitigation Assistance (FMA) program and up to seventeen additional properties utilizing FEMA Severe Repetitive Loss (SRL) program funding.

The County has also submitted an application for \$2 million of FEMA FMA09 funding to continue housing elevation activities in areas of the County prone to flood-related damages.

Rural Development (U.S. Dept. of Agriculture)

If Rural Development allocates funds to finance rental and/or ownership housing in the Urban County during FY 2009-2010, the County will cooperate with the applicants for the funds to identify local funding for their developments. Many areas in Sonoma County qualify for Rural Development programs that provide financial assistance for development of rental and ownership housing affordable to farmworkers and other low-income households.

Federal Home Loan Bank of San Francisco Affordable Housing Program

If the Federal Home Loan Bank of San Francisco's Affordable Housing Program (AHP) awards forgivable loans to developers of affordable rental and ownership housing in the Urban County during FY 2009-2010, the County will work with the developers to identify local financing for the projects.

HUD Stimulus Package

The county will receive approximately \$817,000 in Emergency Shelter Grant (ESG) funding that will be used for homeless prevention and/or rapid re-housing programs. Also, approximately \$535,000 in supplemental CDBG funds will be received for projects within the Urban County. At the time of writing this Action Plan rules and regulations for this funding have not been disseminated by HUD, or have just been disseminated, but once fully received and analyzed, the CDC will develop a process to allocate funds as quickly as possible.

Additionally, a new federal funding initiative called the Neighborhood Stabilization Program (NSP) is projected to provide approximately \$1,800,000 and possibly an additional \$1,500,000 to acquire foreclosed upon residential properties from banks and is expected to become available by summer 2009.

Mortgage Credit Certificate Program

In addition to the above, the County's Mortgage Credit Certificate (MCC) Program, available to residents of the entire county, including the eight incorporated cities and one town, will assist 13-15 lower-income homebuyers to purchase their first homes. The MCC program enables a homebuyer to convert an annual tax credit into a higher monthly income, thereby enabling the buyer to qualify more easily for a loan.

State Resources

CalHome Owner-Occupied Housing Rehabilitation Program

The County received a \$600,000 CalHome 2008 allocation to operate a housing rehabilitation program to assist low-income owner-occupant households in the unincorporated areas of the County. The program is operated in a manner very similar to the existing housing rehabilitation program and will assist up to fifteen households.

Farm Worker Housing Grant and Loan Programs

The State farm worker programs are usually used in conjunction with federal Rural Development programs. BHDC received commitments of FWHG funds for the Windsor Redwoods project, which is expected to begin construction by October 2009.

Tax-Exempt Bond Financing

State and local agencies issue tax-exempt bonds to finance construction loans and permanent financing for affordable rental housing projects, especially those that qualify for 4% federal low-income housing tax credits. Tax exempt bonds are financing the construction and permanent financing at the Windsor Redwoods project.

California Housing Finance Agency

The California Housing Finance Agency (CalHFA) will provide 11 buyers at the Sequoia Village subdivision in Sebastopol, projected to be completed in 2009, below-market rate first mortgages and subordinate financing. CalHFA also is the primary lender for the County's affordable resale program. For rental housing, CalHFA often issues tax-exempt bonds to provide the first mortgage financing for 4% tax credit assisted developments.

Housing Enabled by Local Partnerships (HELP) Program

CalHFA administers the HELP loan program that awards 10-year low-interest rate loans to local jurisdictions to finance development of affordable housing. The \$750,000 in HELP funds previously awarded to the CDC are currently part of the funding source for the County Fund for Housing and are available for use for new projects until 2014.

Predevelopment Loan Program

State Department of Housing and Community Development (HCD) awards low interest, short-term loans for site acquisition and predevelopment to projects in the Urban County.

Multifamily Housing Program

State HCD awards Multifamily Housing Program loans to assist rental housing developments affordable to extremely low- and low-income households in the Urban County. Windsor Redwoods will receive \$4.6 in MHP funding.

Building Equity and Growth In Neighborhoods Program (BEGIN)

When previously funded BEGIN loans are repaid, the Commission will make those funds available for new buyers through its First-time Homebuyer Resale Program. CDC applied for \$600,000 for Las Palmas to assist 11 homebuyers in a development in the Sonoma Valley in 2008. Construction is anticipated to begin in 2009 with completion in 2010.

Local Housing Trust Fund Program (LHTF)

In 2004, State HCD awarded a \$1 million LHTF grant to the County Fund for Housing (CFH) for loans to affordable rental housing developers. Each CFH loan will combine local and LHTF funds. As of March 20, 2009, all LHTF proceeds have been used to assist affordable housing projects throughout the unincorporated County.

Emergency Housing Assistance Program (EHAP)

The State provides EHAP funds for capital costs to create or improve emergency homeless shelters and to pay operating costs for homeless shelters.

Infill Infrastructure Grant Program (IIGP)

State HCD provides funding through the IIGP to promote infill housing development. Grant funds are used to provide financial assistance for infrastructure improvements necessary to facilitate new infill housing developments.

Local Resources

Cities

Many of the local jurisdictions provide funding to nonprofit agencies to operate programs and build facilities that assist their low-income and homeless residents. The Town of Windsor has committed funding to BHDC's Windsor Redwoods rental project and PEP applied for funding for their Shiloh Senior Apartments. The City of Sebastopol has committed funding to BHDC's Sequoia Village and Hollyhock ownership projects and the City of Sonoma applied for funding for demolition expenses in order to build an affordable residential project owned by the City's Community Development Agency.

County Departments The County's Board of Supervisors allocates County general funds to the Community Development Commission and the Permit and Resource Management Department to

underwrite a portion of some affordable housing programs and activities of those County agencies. Several County departments, including the Health and Human Services departments, offer grants to nonprofit agencies and local jurisdictions to operate supportive services programs that provide assistance to low-income and homeless residents of the County.

County Fund for Housing

The County Fund for Housing (CFH) is a multi-million dollar pool of County and State funds currently available for loans to developers of affordable rental and ownership housing in the unincorporated areas of the County. The Community Development Commission administers the CFH as an over-the-counter application program. The Guerneville Fifth and Mill project, now known as Fife Creek Commons, in the unincorporated area of Guerneville was awarded a total of \$1,110,000 for construction costs.

Redevelopment Housing Set Asides

The County's three Redevelopment Projects, as well as the seven redevelopment project areas in the Urban County's participating cities, must set aside at least 20% of their tax increment revenues for affordable housing. County Redevelopment funds of \$1,060,000 have been loaned to assist with the development of 11 affordable ownership units at Las Palmas project. In addition, Redevelopment funds of \$890,000 have been loaned to Burbank Housing Development Corporation for its 5th and Mill rental housing project in the unincorporated locality of Guerneville. Currently, County Redevelopment funds are also being used to administer a housing rehabilitation loan program in each County Project Area.

Article 34 Authority

Article 34 in the Constitution of the State of California requires a vote of the people when a public body will develop, construct or acquire rental housing affordable to low income households. In November 2004, the voters residing in the unincorporated areas of the County approved a ballot measure that establishes an annual allocation of Article 34 authority for development of rental housing affordable to low income households. The annual allocation equals one half of one percent (0.5%) of the housing units available in the unincorporated County that year.

Private Resources

Local Lenders

Local lenders such as Luther Burbank Savings, Westamerica Bank, Exchange Bank, and US Bank have provided and continue to provide predevelopment, construction and permanent financing for affordable housing developments.

Rural Community Assistance Corporation (RCAC)

RCAC provides short-term and long-term loans to developers of affordable housing. BHDC has made extensive use of RCAC financing over the years.

Northern California Community Loan Fund (NCCLF)

NCCLF makes short-term loans to developers of affordable housing, including single family, multifamily and special needs. The loans can finance site acquisition, predevelopment, site development, unit construction, acquisition and rehabilitation of existing units, and the refinancing of existing debt.

HCA Homeless Prevention Fund

The HCA fund was established by a private individual and is administered by Community Action Partnership of Sonoma County. This fund provides short-term financial assistance to low-income persons throughout the County to avoid loss of their housing.

Homeless Prevention Program (SCAYD)

The Homeless Prevention Program, administered by SCAYD, offers financial assistance in the form of loans to residents of the Rohnert Park and Cotati.

Community Foundation Sonoma County

This foundation provides grants to nonprofit agencies to operate programs that provide services to the County's low-income and homeless residents, with an emphasis on services to teen mothers and other families with children.

United Way

The United Way of Sonoma, Lake and Mendocino Counties provides grants to nonprofit agencies to operate programs that provide services to low-income and homeless persons.

Organizational Resources

Organizational resources are as important as financial resources in ensuring that housing and homeless assistance projects and activities will be carried out successfully. Primary resources in this category include governmental agencies, community-based nonprofits, faith-based organizations, and members of the private sector.

Technical Advisory Committee

The County of Sonoma and the seven participating cities of the Urban County have cooperated successfully in the use of CDBG, HOME and ESG funds since 1982. A Joint Powers Agreement for Community Development has been executed by the County and the incorporated municipalities and defines the roles of the various entities. Members of the Technical Advisory Committee are appointed by either the City and Town Managers or the City and Town Councils of the seven participating municipalities. This Committee will continue to review and make recommendations to the Board of Supervisors on issues and policies relating to the distribution of these funds within their jurisdictions.

Community Development Committee

The Community Development Committee will continue to recommend policies and programs, review and prioritize HOME, ESG and CDBG proposals for funding and review program performance.

Community Development Commission

The Community Development Commission will continue to operate countywide housing projects, redevelopment programs and administer the federal housing and homeless programs made available to the County of Sonoma.

The Board of Supervisors will take actions addressing needs in the unincorporated areas. The Board also is the decision making authority for policies, programs and allocation of the Urban County's CDBG, HOME, and ESG funds for housing and community development projects.

County and City Departments

Commission staff will continue to work closely with other County development services departments (such as Public Works, Permit & Resource Management, General Services, Emergency Services, Water Agency, and Regional Parks), as well as with building and planning departments within the cities to ensure that CDBG-, HOME- and ESG-funded projects are implemented and completed on schedule and in compliance with the applicable federal regulations. Coordinating resources is crucial to the success of all programs.

Continuum of Care Planning Group

The Continuum of Care Planning Group, comprised of a broad range of public, private nonprofit and for-profit entities, as well as private citizens, will continue to meet to discuss, develop and implement the Sonoma County Continuum of Care Plan. As discussed in the *Homeless* sections

of the 2005 Consolidated Plan, the Continuum of Care addresses the full spectrum of shelter, housing and service needs for all homeless subpopulations in Sonoma County.

Nonprofit Organizations

Local nonprofit developers and agencies such as BHDC, PEP and Community Housing Sonoma County (CHSC) will continue to play a key role in the development of affordable housing. BHDC has the capacity to purchase land, obtain financing, develop and manage a variety of housing types. CHSC is especially well suited to the development of housing with supportive services for people with disabilities or who have experienced homelessness. Each of these development organizations has special areas of expertise.

Sonoma County is home to a host of community-based nonprofit organizations that use CDBG, HOME and ESG funding, as well as funding from many other sources, to provide emergency, transitional and permanent supportive housing and supportive services for the County's homeless subpopulations. Brief descriptions of most of these organizations are found in the *General – Managing the Process* section of the Consolidated Plan.

Sonoma County Task Force on the Homeless

The Task Force on the Homeless is a central clearing house for information about local shelters, for periodic needs assessment and to disseminate information on funding. The Task Force convenes meetings of housing and service providers to facilitate information sharing and coordination of services and provides financial assistance to providers. The Task Force also administers the FEMA-funded Emergency Food and Shelter Program locally, distributing over \$300,000 per year to area non-profit agencies.

Faith-Based Organizations

Many of the faith-based organizations located throughout Sonoma County provide varying levels and types of services and financial assistance to low-income and homeless persons. In addition, many of these organizations take an active role in recruiting their members to volunteer at the local shelters and other facilities serving the homeless.

The Private Sector

For-profit developers have successfully built affordable housing in Sonoma County. Private sector developers use the County's density bonus programs to create rental and ownership housing affordable to the County's low/moderate-income families. Their efforts will be supported and encouraged whenever possible.

Managing the Process

Error! Reference source not found.Action Plan Managing the Process response:

1. Identify the lead agency, entity, and agencies responsible for administering programs covered by the consolidated plan.

Pursuant to a Joint Powers Agreement, Sonoma County is the lead agency for the Urban County, comprised of the County and the seven municipalities of Cloverdale, Cotati, Healdsburg, Rohnert Park, Sebastopol, Sonoma and Windsor. The Urban County is the entity recognized by HUD as eligible for formula grant funding under the CDBG, HOME and ESG programs. The County has the authority to select and carry out activities that are funded by the programs covered under the Plan and to submit the Consolidated Plan, including annual Action Plans, substantial amendments and annual performance reports, to HUD. Sonoma County is governed by an elected Board of Supervisors, composed of one representative from each of the County's five Supervisorial districts.

The Board of Supervisors has designated the Sonoma County Community Development Commission (SCCDC) as the agency responsible for overseeing the development of the

Consolidated Plan and for administering the programs covered by the Plan, and acts as the five-member governing body of the Commission. The Board of Supervisors has established a Community Development Committee comprised of eight appointed members as the Commission's advisory body to recommend policies and programs, review and prioritize HOME, ESG and CDBG proposals for funding and review program performance. The appointees of the City and Town Managers or City and Town councils of the seven participating municipalities form a second advisory body, the Technical Advisory Committee that reviews and makes recommendations to the Board of Supervisors on issues relating to the distribution of funds within the seven incorporated jurisdictions.

The Community Development Commission staff works with a wide variety of public and private entities to administer programs covered by the 2005 Consolidated Plan, listed in Question 3 of this section, below.

2. Identify the significant aspects of the process by which the plan was developed, and the agencies, groups, organizations, and others who participated in the process.

The 2005 Consolidated Plan was developed in consultation with a wide range of public and private entities, including governmental and nonprofit organizations knowledgeable about the needs of the low/moderate-income residents of Sonoma County, and private citizens interested in, or affected by, the housing and community development activities discussed in the Plan. Relevant input was gathered from four different aspects, as described below.

The SCCDC annually conducts technical assistance sessions for entities that are interested in using CDBG, HOME and/or ESG funds. As part of the formulation of the 2005 Consolidated Plan, a portion of each session held in December 2004 was dedicated to the discussion of the consolidated planning process and the strengths and weaknesses of the delivery system as it currently exists in Sonoma County. The specific emphasis in these sessions was to ascertain the capacity of the stakeholders and the delineation of their planned activities over the next five years.

The SCCDC also conducted a public Needs Assessment Forum on December 16, 2004, to gather input from housing, facility and service providers, relevant agencies and members of the public. The forum was conducted by defining the role of the Consolidated Plan in determining the Urban County's expenditure of CDBG, HOME and ESG funding, and explaining the relationship of the Plan to the Sonoma County Continuum of Care Plan and the Sonoma County Housing Authority Agency Plan. Once the parameters and limitations of the Consolidated Plan were established, the assessment of priority needs was solicited through an open dialogue, resulting in richly variant input from both geographically and philosophically diverse sources.

The third aspect utilized to develop the 2005 Consolidated Plan was the SCCDC's direct consultation and on-going fact gathering with housing, social service, homeless provider, community development and other stakeholder agencies.

Lastly, SCCDC staff analyzed historic accomplishments and projections of future resources to help shape the diverse input described above into a concise, useful, action-oriented Strategic Plan.

3. Describe actions that will take place during the next year to enhance coordination between public and private housing, health, and social service agencies.

In the next year, the SCCDC will continue the on-going interaction with many public and private entities to further the objectives of the 2005 Consolidated Plan. Several of the public agencies listed below also receive funding from the SCCDC to directly implement programs described in the FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

Sonoma County Health and Human Services Coordinating Committee
Sonoma County Human Services Department
Sonoma County Department of Health Services - Mental Health Division
Sonoma County Department of Health Services – Public Health Division
Sonoma County Department of Health Services – Environmental Health Division
Sonoma County Regional Parks Department
Sonoma County Department of Transportation and Public Works (DTPW)
Sonoma County Permit & Resource Management Department (PRMD)
Sonoma County Redevelopment Agency
Sonoma County Housing Authority
Urban County Cities/Town
Cities of Petaluma and Santa Rosa
Continuum of Care Planning Group

The following nonprofit agencies interact regularly with SCCDC staff to share information about their clients' needs. Representatives of many of these agencies also attend Continuum of Care Planning Group meetings and provided input for the 2005 Consolidated Plan. Several of the non-profit agencies listed below also receive funding from the SCCDC to directly implement programs described in the FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

Becoming Independent	InterFaith Shelter Network
Buckelew Programs	Living Room
Burbank Housing Development Corp	Oaks of Hebron
Catholic Charities	Redwood Gospel Mission
Cloverdale Community Outreach	Salvation Army
Committee/The Wallace House	Social Advocates for Youth
Committee on the Shelterless (COTS)	Sonoma County Adult and Youth
Community Action Partnership of Sonoma	Development (SCAYD)
County (CAPSC)	Sonoma County Task Force on the
Community Housing Sonoma County	Homeless
(CHDSC)	The Living Room
Community Support Network	Vietnam Veterans of California
Disability Services Legal Center	Women's Recovery Services
Face to Face	YWCA of Sonoma County
Housing Advocacy Group	

Citizen Participation

Error! Reference source not found.Action Plan Citizen Participation response:

1. Provide a summary of the citizen participation process.

As indicated in the *Managing the Process* section of this Action Plan and more thoroughly in the *Citizen Participation* section of the 2005 Consolidated Plan, the SCCDC engages in a continuous consultation process related to planning and implementing housing and community development activities in Sonoma County.

The following timetable details the formal steps involved in the development of this Action Plan.

August 18, 2008 9:00 a.m.	Technical Advisory Committee (TAC) reviews proposed revisions to CDBG, HOME and ESG Policies.
September 9, 2008 3:30 p.m.	Community Development Committee (CD) reviews proposed revisions to CDBG, HOME and ESG Policies.
October 14, 2008 3:30 p.m.	TAC/CD Joint Public Hearing to identify housing and community development needs, review past program performance and review CDBG, HOME and ESG Policies.
November 4, 2008 8:30 a.m.	Board of Supervisors adopts 2009/2010 CDBG, HOME and ESG Policies and authorizes County departments to prepare funding proposals.
November 6, 2008 9:00 a.m.	Technical Assistance Session for agencies/organizations interested in submitting proposals for inclusion in the 09/10 Action Plan. Notice of CDBG, HOME and ESG funding availability issued inviting submission of proposals for inclusion in 09/10 Action Plan.
November 7, 2008 – January 9, 2009	CDBG projects located in, and serving residents of one or more specific incorporated areas obtain the endorsement of the City/Town Council(s) of the jurisdiction(s) in which they will operate prior to submitting proposals to Commission. A Letter of Intent summarizing the project must be sent by 12/108, to be forwarded to the city or town of project location no later than 12/5/08 to allow sufficient time for council action.
December 1, 2008	Deadline for Commission to receive Letter of Intent for any project to be located in an incorporated jurisdiction (except project of a county-wide nature.).
January 9, 2009	CDBG, HOME & ESG Proposals are due at Commission office by 5:00 p.m.
March 10, 2009 8:30 a.m.	CD Committee Public Hearing on all HOME and ESG proposals and non-Public Service CDBG proposals located in unincorporated jurisdictions. Funding recommendations to be included in FY 09-10 Action Plan.
March 16, 2009 9:00 a.m.	TAC Public Hearing on proposals for projects in the incorporated jurisdictions. Recommendations for proposals to be included in FY 2009-2010 Action Plan.
March 31, 2009	Publish, disseminate summary of 09/10 Action Plan. 30-day comment period begins.
April 30, 2009	30-day comment period ends. Comments due at Commission office by 5:00 p.m.
May 5, 2009	Board of Supervisors public meeting to discuss and adopt 09-10 Action Plan.
May 15, 2009	Deadline for FY 2009-2010 Action Plan to be received at HUD office.

2. Provide a summary of citizen comments or views on the plan.

At the Board of Supervisor’s public meeting, held on May 5, 2009, representatives of non-profit agencies spoke on the funding process and in support of funding or increasing FY 2009-2010 funding recommendation to enable agencies to better serve their clientele.

The Chair of the Community Development Committee thanked the Board, Community Development staff and non-profit agencies for their hard work. He said the Committee’s focus was to programs countywide in nature to make sure all geographical areas were being served. The Committee tried to avoid duplication of services and hoped that stimulus funding would help to fill the gap. After consideration of all comments, the Board made final funding recommendations for FY 2009-2010 projects and adopted this Action Plan.

3. Provide a summary of efforts made to broaden public participation in the development of the consolidated plan, including outreach to minorities and non-English speaking persons, as well as persons with disabilities.

To ensure that all citizens, public agencies, and other interested parties have the opportunity to review and comment on issues relevant to proposed housing and community development activities, the proposed use of housing and community development funds, and the County’s past use of CDBG, HOME and ESG assistance, the SCCDC ensures that the public is provided with reasonable and timely access to meetings, information and records. The Commission also provides technical assistance to any persons or groups interested in developing CDBG, HOME or ESG funding proposals, including groups representative of low/moderate-income persons, minority and non-English speaking populations, and persons with disabilities.

All public notices are published at least two weeks prior to the hearing date. Flyers in both English and Spanish are sent to 23 organizations that are frequented by low- and moderate-income persons and minority populations likely to be affected by the SCCDC's CDBG, HOME and ESG-funded activities, including posting in the lobby of the Sonoma County Housing Authority and the main Public Library. Notices related to the consolidated planning process are also mailed directly to over one-hundred interested parties who have requested to be included on a mailing list maintained for this purpose, in both English and Spanish. The SCCDC employs several Spanish-speaking individuals to assist those that require such assistance and maintains access to translators for myriad languages.

All public hearings and public meetings are held in locations throughout the County that are considered convenient to interested parties located near public transportation. In all cases, meeting locations are wheelchair accessible. Special accommodations for persons with visual or hearing impairments are made upon request. In cases where a significant number of non-English speaking residents are expected to attend a public hearing or meeting, the SCCDC supplies an interpreter. The adopted Consolidated Plan, any approved substantial amendments and the annual performance report are made available to the public. Public review drafts and final documents are posted on the SCCDC's website, and no-cost copies of the documents are provided to interested citizens that do not have Internet access, upon request. The documents are also made available in a form accessible to persons with disabilities, upon request.

The Sonoma County Community Development Commission (CDC), including the Housing Authority and Redevelopment Agency, has developed a policy to protect the individual recipients of its services from the effects of discrimination because of their race, color, or national origin. The goal of this policy is to provide meaningful access to translation or interpreter services, for persons with Limited English Proficiency.

A person with Limited English Proficiency (LEP) is a person who does not speak English as their primary language and who has a limited ability to read, write, speak or understand English. The CDC will continue to take affirmative steps to communicate with people who need services or information in a language other than English. This policy was developed to serve applicants, participants, and/or persons eligible for housing assistance and support services.

The CDC will analyze the various kinds of contacts it has with the public, to assess language needs and decide what reasonable steps should be taken. In order to determine the level of access needed by LEP persons, the CDC balances the following four factors:

- (1) the number or proportion of LEP persons eligible to be served or likely to be applying for program services;
- (2) the frequency with which LEP persons utilize these programs and services;
- (3) the nature and importance of the program, activity, or service provided; and
- (4) the benefits from providing LEP services, and the resources available and costs to the CDC for those services.

Balancing these four factors will ensure meaningful access by LEP persons to critical services while not imposing undue burdens on the CDC.

In addition, this policy extends to all partners in the Commission's programs, including but not limited to local government entities, assisted housing providers, public service providers, and affordable housing developers. These groups shall provide the Commission with copies of their own LEP Policies.

In consideration of these policies, the Commission has developed the Language Access Plan to implement solutions to the identified needs of the LEP populations it serves. A copy of this plan is available upon request.

4. Provide a written explanation of comments not accepted and the reasons why these comments were not accepted.

No public comments were received.

Institutional Structure

Error! Reference source not found.Action Plan Institutional Structure response:

1. Describe actions that will take place during the next year to develop institutional structure.

The Sonoma County Community Development Commission (SCCDC) will continue to work in conjunction with multiple County departments, the seven participating municipalities, and various nonprofit agencies receiving CDBG, HOME and ESG funding to carry out the activities covered by the 2005 Consolidated Plan during the next year. The FY 2009-2010 Action Plan Funding Priorities chart included in the *Year 5 Additional Files* section of this Action Plan contains a listing of those entities receiving funding in FY 2009-2010. In addition, the Sonoma County Housing Authority will maintain the 32 service provider agreements with local supportive service agencies to provide services to the Housing Authority's Family Self-Sufficiency participants.

Throughout the years, the County, the participating cities, the two separate "entitlement cities" of Petaluma and Santa Rosa, and various nonprofit agencies have successfully provided numerous affordable housing opportunities to low/moderate-income households. Parallel, but generally separate, efforts have been successful in providing supportive services needed by the County's special needs populations. Experience, however, has proven that the provision of supportive services in conjunction with affordable housing is the most effective means of delivering both a suitable living environment and the specialized services needed to provide stable, independent lives. Supportive housing, following the model advanced under the continuum of care concept, provides the vehicle to achieve lasting outcomes. The County will continue efforts to encourage collaboration between housing providers and health, mental health and service agencies with the intention of fostering development of more supportive housing options throughout the County. The County's leading nonprofit housing developer successfully collaborates with other local nonprofit agencies to develop and operate affordable housing projects with specific set-asides of permanent supportive housing units for persons with mental, developmental or other disabilities included in the overall development.

The ongoing Continuum of Care planning process will continue to facilitate increased collaboration among the County, City of Santa Rosa, City of Petaluma, the County Departments of Health and Human Services, and virtually all housing and homeless service providers throughout Sonoma County. The information sharing and brainstorming that takes place at these meetings will continue as an instrumental force in forging new connections and working relationships among several different participants.

Monitoring

Error! Reference source not found.Action Plan Monitoring response:

1. Describe actions that will take place during the next year to monitor its housing and community development projects and ensure long-term compliance with program requirements and comprehensive planning requirements.

Programmatic Compliance

The Sonoma County Community Development Commission (SCCDC) staff regularly monitors CDBG, HOME and ESG funded activities to ensure that all projects are administered in

compliance with applicable regulations and that accomplishments are addressing the priorities established in the Consolidated Plan. Because the majority of the funding allocated to the SCCDC is provided to other governmental and nonprofit agencies, providing technical assistance to, and monitoring the performance of, subrecipients is crucial. The Subrecipient Agreement used by the SCCDC details program requirements, applicable statutes and regulations, and references the provisions of several OMB Circulars containing federal cost principles, audit, and uniform administrative requirements. The SCCDC provides an extensive Subrecipient Handbook containing copies of all pertinent regulatory provisions, along with all other forms and guidelines to all entities receiving funds. The Handbook, as well as commonly used forms, can be found on the SCCDC website. The SCCDC conducts a mandatory orientation session at the beginning of each fiscal year, during which all subrecipients receive updated information regarding the regulations and policies pertaining to their funded activities. Throughout the year, SCCDC staff provides additional technical assistance through one-on-one contacts with many of the subrecipient agencies.

Subrecipient Reporting Requirements

Subrecipients of CDBG, HOME and ESG funds are required under contract to submit three quarterly reports and an annual report to the SCCDC. Each of the quarterly reports provides detailed financial and quantifiable narrative information regarding the subrecipients' activities, beneficiaries, and accomplishments during the ninety-day term. The final or annual report covers the entire term of the contract, extending through the final day of the fiscal year. The SCCDC reviews and monitors the reports both for completeness and for compliance with all applicable federal and local regulations.

Reimbursement Reports

Once contracts have been executed between the SCCDC and subrecipients for use of federal funds, the grantees may begin submitting requests for reimbursable expenses. Requests for funds are accompanied by a Reimbursement Report. The Reimbursement Reports contain a breakdown of expenditures by eligible, authorized activity and total expenditures for the report period, which is typically either monthly or quarterly. The reports are accompanied by backup documentation for the reported expenditures, including payroll and tax reports, receipts, bills, and/or check registers. The SCCDC compliance staff reviews the Reports to ensure that expenditures are consistent with contract terms and that all funds have been expended only for eligible activities. Payments are not released for ineligible expenses or for activities that are not authorized in the contract documents.

Project Monitoring

The SCCDC's project management staff routinely monitors the projects being undertaken with federal and local housing and community development funds. In addition to reviewing financial and programmatic reports, staff assists in the development of community development projects and guides the various subrecipients through the project development process. This often entails informing, educating, and ensuring compliance with the numerous federal guidelines including labor standards, environmental assessments, relocation, displacement and one-for-one replacement, and competitive bidding procedures.

When projects or services commence implementation or construction, SCCDC staff may conduct site surveys. This includes projects or services funded with CDBG, ESG, HOME and McKinney-Vento funding through the Sonoma County Continuum of Care. SCCDC staff regularly monitors service and construction sites to ensure that the projects are progressing according to schedule and to assess the efficiency and effectiveness of the agencies project management.

Financial Monitoring

The SCCDC's financial staff is responsible for monitoring the fiscal accountability and responsibility of subrecipient organizations. Financial staff periodically performs random checks of Reimbursement Reports and maintains all records of actual reimbursements made to subrecipients. The financial staff reports to project staff regarding the financial progress of all

subrecipient activities by fiscal year. Similarly, project staff regularly advises financial staff of new project developments, the status of expenditures, and timeliness of reports.

Many subrecipients are required to submit annual program specific or single audits, as required by OMB Circular A-133, to the SCCDC within 120 days from the end of the subrecipient's fiscal year. All applicants for funds are also required to submit copies of their previous two annual financial statements at the time an application for funding is submitted. Financial staff reviews and reports on each agency's fiscal year financial statements prior to the execution of new contracts and at the close of each fiscal year.

On-site financial monitoring is also conducted annually and with additional periodic visits, if deemed necessary. Financial staff interviews project delivery staff regarding compliance with federal regulations, local requirements, and tests records for consistency with generally accepted accounting practices. The frequency of monitoring varies depending upon the source of funds, the size of the subsidy, the type of project and the monitoring history.

Monitoring Affordable Rental Housing Developments

The SCCDC has developed an Affordable Rental Housing Monitoring Manual that sets out detailed procedures for monitoring developments funded with CDBG, HOME, or and other local financing/incentives. The manual includes procedures for performing initial tenant eligibility certifications, annual tenant eligibility re-certifications, completing compliance reports, performing site visits, and monitoring maximum rent and income levels. The manual also incorporates all of the current forms and documents the Commission uses to monitor affordable developments. Implementation of the procedures detailed in the manual ensures that the County's CDBG and HOME programs remain in compliance with all applicable, post-completion program requirements.

Performance Measurement System

In formulating the 2005 Consolidated Plan, the County conducted an assessment of the needs prevalent in its jurisdiction and developed goals and specific objectives, along with measurable outputs, to address those needs identified. Beginning with FY 2006-07, the County began use of the Outcome Performance Measurement consistent with the goals and objectives contained in HUD's Strategic Plan for the years 2006-2011 and incorporated them into HUD's Integrated Disbursement and Information System (IDIS) as interpreted in the chart below. This framework creates a performance measurement system that enables the County to track the progress made in achieving the stated goals on both an annual and cumulative basis. By evaluating progress, the County continually strives to delineate meaningful outcomes and indicators to assess the impact upon those benefiting from the CDBG, HOME and ESG programs.

	Outcome 1	Outcome 2	Outcome 3
Objective SL Suitable Living Environment	Improved and/or new Availability/Accessibility	Improved and/or new Affordability	Improved and/or new Sustainability
Objective DH Decent Housing	Improved and/or new Availability/Accessibility	Improved and/or new Affordability	Improved and/or new Sustainability
Objective EO Economic Opportunity	Improved and/or new Availability/Accessibility	Improved and/or new Affordability	Improved and/or new Sustainability

Lead-based Paint

Error! Reference source not found.Action Plan Lead-based Paint response:

- 1. Describe the actions that will take place during the next year to evaluate and reduce the number of housing units containing lead-based paint hazards in order to increase the inventory of lead-safe housing available to extremely low-income, low-income, and moderate-income families, and how the plan for the reduction of lead-based hazards is related to the extent of lead poisoning and hazards.**

To parallel HUD's Strategic Plan to Eliminate Childhood Lead Poisoning by 2010 and the U.S. Department of Health and Human Services' Healthy People 2010 objective, Sonoma County will continue operation of the Childhood Lead Poisoning Prevention Project (CLPPP) with the expressed objective to eliminate elevated blood lead levels in the children of Sonoma County by 2010. The program provides information to health care providers on the importance of routine screening of children for exposure to lead, and case management services to children identified with elevated blood lead levels. Additionally, public health nurses and environmental health specialists work with the families to identify and eliminate the source of the lead exposure, including lead-based paint hazards. Health care providers also perform blood lead testing on all children eligible to receive State assistance services at 12 and 24 months of age, and recommend screening for those not previously tested at the ages of two years and six years.

Removing all lead-based paint from the housing stock of Sonoma County is not an economically feasible goal. Making housing lead-safe is the most effective strategy to protect the children of the County. The Sonoma County Community Development Commission (SCCDC) addresses this through proactively disseminating printed information concerning lead-based paint hazards to all residents of housing rehabilitation and rental assistance programs. The SCCDC's Lease Negotiator/Inspectors have received training in visual assessment of lead-based paint hazards and are observant of the existence of this hazard during their property inspections, thereby preventing exposure to lead hazards by identifying the risks before clients move into rental units. The SCCDC's Housing Rehabilitation Specialists are trained in the identification of lead hazards, proper methods of paint stabilization, interim control, abatement procedures and testing/clearance reports to ensure compliance with all lead hazard reduction requirements during rehabilitation activities. Any dwellings not exempt from HUD's lead hazard reduction provisions (single-room occupancy, dedicated senior housing and housing construction after 1978) renovated under the Housing Rehabilitation Program undergo a lead hazard risk assessment by a state-certified Risk Assessor prior to the formulation of the project's scope of work. Any identified lead hazards are addressed in the scope of work and a certified clearance is obtained before the project is considered complete. The SCCDC will also ensure compliance with lead hazard reduction requirements by subrecipients of CDBG, HOME and ESG funding used to acquire and/or renovate existing buildings for housing or to undertake residential service activities through regular monitoring of those activities. In addition, the SCCDC will continue to provide links to additional information regarding lead-based paint and lead hazards on its website.

HOUSING

Specific Housing Objectives

*Please also refer to the Housing Needs Table in the Needs.xls workbook.

Error! Reference source not found.Action Plan Specific Objectives response:

1. Describe the priorities and specific objectives the jurisdiction hopes to achieve during the next year.

From July 1, 2009 through June 30, 2010, the Urban County plans to address the priority housing needs discussed in the *Housing Needs*, *Priority Housing Needs*, and *Housing Market Analysis* sections of the Strategic Plan. The Housing Goal and six specific housing objectives listed in the Executive Summary generally describe the ways in which the Urban County plans to address these priority needs. The County will primarily focus resources on rental housing development and rental housing assistance. As opportunities arise, the County also will devote resources to affordable homeownership opportunities for low- and moderate-income first-time homebuyers. A brief description of each project funded in FY 2009-2010, the funding amount, and identification of the objectives achieved by the project, are included in the Affordable Housing Activities Priority Funding section of FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

2. Describe how Federal, State, and local public and private sector resources that are reasonably expected to be available will be used to address identified needs for the period covered by this Action Plan.

See General Questions, answer to Question #4.

Needs of Public Housing

Error! Reference source not found.Action Plan Public Housing Strategy response:

1. Describe the manner in which the plan of the jurisdiction will help address the needs of public housing and activities it will undertake during the next year to encourage public housing residents to become more involved in management and participate in homeownership.

The Sonoma County Housing Authority does not own public housing. The Sonoma County Community Development Commission, the administrator for the Urban County's HOME, CDBG and ESG programs, includes two Housing Choice Voucher (Section 8) tenants as voting members of the Community Development Committee. This committee provides guidance and recommendations to the Commission and the Sonoma County Board of Supervisors regarding the policies that govern the Urban County's HOME, CDBG and ESG programs and the allocation of the funds from those federal programs. By providing its clients the necessary counseling and the opportunity to save for a down payment, the Sonoma County Housing Authority's Family Self-Sufficiency (FSS) program represents one avenue for voucher-assisted tenants to become homeowners.

2. If the public housing agency is designated as "troubled" by HUD or otherwise is performing poorly, the jurisdiction shall describe the manner in which it will provide financial or other assistance in improving its operations to remove such designation during the next year.

HUD has designated the Sonoma County Housing Authority as a "higher performer" agency.

Barriers to Affordable Housing

Error! Reference source not found. Action Plan Barriers to Affordable Housing response:

1. Describe the actions that will take place during the next year to remove barriers to affordable housing.

Regulations of the State of California require each jurisdiction's General Plan Housing Element to identify constraints to housing development and to identify measures the jurisdiction will undertake to ameliorate those constraints. The following list provides specific examples of the actions that the Urban County's local jurisdictions will undertake to remove barriers to affordable housing. This listing is intended to illustrate rather than catalog the range of actions each jurisdiction will undertake.

Fees and Other Exactions

- The Town of Windsor will consider, on a case-by-case basis, deferral of fees until housing units are sold or ready for occupancy as a means of providing assistance to developers of affordable housing.
- The City of Rohnert Park adopted a policy deferring development fees for housing projects targeted to lower-income households when based on need to ensure project feasibility. This policy is similar to the adopted policy deferring permit and inspection fees for affordable housing projects.
- The City of Cotati adopted Ordinance No. 782, establishing an Affordable Housing In-Lieu Fee on non-residential development on April 26, 2006.
- In the County, when considering new applications for residential development, the need for affordable housing will have priority over amenities that are not required to ensure health and safety, and the cost of the amenities shall be as minimal as possible. The County also established a Housing Trust Fund to provide financing for affordable housing development.

Density Standard

- The Town of Windsor shall provide a sufficient portion of land in the Medium-High Density Residential, High Density Residential, and mixed use/commercial designation that permits residential development to meet its obligation to provide the sites suitable for the production of needed housing affordable to very-low and low-income households.
- The County will continue to consult with residential builders and property owners on an on-going basis to determine what future incentives may be needed to ensure wider use of existing density bonus programs.

Codes and Enforcement

- The City of Healdsburg has increased the maximum residential building height limit from 35 feet to 40 feet in any zone where multifamily housing is allowed.
- The City of Sebastopol amended its Municipal Code to provide individuals with disabilities reasonable accommodation in rules, policies, practices and procedures in regard to relief from the various land use, zoning, or building laws that may be necessary to ensure equal access to housing.
- The County will consider revising existing regulations in order to allow long term occupancy of travel trailers and/or recreational vehicles in existing campgrounds, in compliance with State and County codes and regulations.
- The County of Sonoma has adopted changes to the zoning code, establishing a procedure to allow illegal units to be legalized rather than destroyed in exchange for affordability restrictions.

Growth Management

- The City of Healdsburg will support the highest appropriate density to encourage greater housing production at reduced cost for land designated for residential development within the City's Urban Growth Boundary.
- The City of Sebastopol will maintain exemption from the Growth Management Ordinance for housing projects affordable to lower and median-income households. The City also has selected developers to develop affordable housing on two City-owned parcels.
- The City of Rohnert Park's growth management plan is reviewed annually to determine, in part, whether priority should be given to specific housing types to achieve a balanced land use and housing program and to ensure internal consistency with the General Plan.
- The Town of Windsor will continue to implement its growth control provisions to ensure that adequate affordable units are built. The growth control provisions shall not preclude the Town from meeting its housing unit allocation.

Wastewater Treatment Capacity

- The Sonoma Valley County Sanitation District, which provides the City of Sonoma with wastewater collection services, will continue to require installation of low-flow toilets in new housing units and will maintain a program to replace the toilets in existing housing toilets with low-flow toilets.

Other Infrastructure in Support of Housing

- The City of Sebastopol implemented a five-year Capital Improvement Program on June 11, 2008 to guide development of public facilities required by new residential demand and to improve existing facilities in need of upgrading. The City completed a Water Master Plan in 2006 that addresses all of the areas within the City's Urban Growth Boundary. A Water Supply Assessment was also approved in June 2007 in connection with the Northeast Area Specific Plan (currently in progress), which included all future growth potential in the Urban Growth Boundary to a 20-year planning horizon.
- The County of Sonoma will cooperate with the County's cities and other public agencies in solving regional infrastructure problems including transportation, water supply, sewage treatment, as well as open space preservation.
- Sonoma County will consider sewer and water district annexations or out-of-service-area agreements on properties adjoining urban service boundaries for moderate or lower income housing projects.
- Under a Memorandum of Understanding with the Sonoma County Water Agency, the City of Rohnert Park will continue to receive an interim allocation of water until September 2010, when additional water supplies are expected to become available. The City's annual use of water currently exceeds its entitlement

Zoning/Land Use

- The City of Cloverdale revised the Zoning Ordinance to increase the maximum allowable lot coverage by deleting parking and driveway space from the calculation of lot coverage.
- The City of Cloverdale adopted an Inclusionary Housing Ordinance that requires below-market rate housing to be included as part of residential projects.
- The City of Healdsburg will maintain the Inclusionary Zoning Ordinance to establish minimum affordability requirements and in-lieu fees to promote the inclusion of affordable housing throughout the community.
- In the Town of Windsor, the Zoning Ordinance will ensure that supportive housing and other group living situations with more than six beds are able to be located with a minimum of regulatory barriers.
- The City of Sonoma's primary objective is the housing needs of very low- and low-income households, and will facilitate and encourage affordable housing development by allowing development in higher densities, which helps to reduce per-unit land costs.
- The Town of Windsor's goal is to integrate affordable housing with market rate housing wherever possible in order to provide diversity in housing options to Windsor residents.

- The City of Sebastopol created a Mobile Home Park Overlay District to promote preservation of this type of housing.
- The City of Rohnert Park amended the Zoning Ordinance to allow for second dwelling units on owner-occupied lots with single-family, detached homes, subject to appropriate standards.

Development Funds for Affordable Housing

- The City of Cloverdale has established a Housing Fund to finance housing affordable to low- to middle-income households through their Redevelopment Agency.
- The City of Sonoma will establish a fund to finance the preservation of affordable units at-risk of becoming market rate units.
- The Town of Windsor, when appropriate and available shall provide financial assistance to developers of very low- and low-income housing.
- The County of Sonoma will promote the County Fund for Housing, a housing trust fund designed to provide both short- and long-term financing for affordable housing development.

Fair Housing

- The Urban County will continue to fund Community Action Partnership of Sonoma County fair housing and equal housing opportunity services.
- Sonoma County will work with the cities of Petaluma and Santa Rosa to update their analysis of impediments to fair housing choice.

HOME/ American Dream Down payment Initiative (ADDI)

Error! Reference source not found.Action Plan HOME/ADDI response:

1. Describe other forms of investment not described in § 92.205(b).

Sonoma County will not use HOME funds for any form of investment not described at section 92.205(b) of the Final Rule.

2. If the participating jurisdiction (PJ) will use HOME or ADDI funds for homebuyers, it must state the guidelines for resale or recapture, as required in § 92.254 of the HOME rule.

No ADDI funds were received in FY 09-10. Sonoma County uses ADDI funds received prior to this year to provide down payment and closing costs assistance to eligible first time homebuyers. The assistance of up to \$10,000 per transaction is in the form of a forgivable loan. The loan will be forgiven and convert to a grant if the eligible household is in compliance with loan terms and resides in the purchased unit for five years.

The total amount of ADDI funds allocated to date for this program is \$234,237. The Wildflower Homeownership Development in Sonoma previously used \$84,590 of these funds. An additional \$120,000 has been committed to the Sequoia Village project in Sebastopol leaving a remaining balance of \$29,647. The closing of the Sequoia Village loan is anticipated to be in the spring of 2010.

The ADDI down payment assistance program will be available only to those homebuyers who are being assisted by other Community Development Commission first time homebuyer programs and who are seeking to purchase a “re-sale” unit where the Commission holds a recorded purchase option. These guidelines match the guidelines that the County’s Board of Supervisors has approved for the County’s other homeownership programs.

3. **If the PJ will use HOME funds to refinance existing debt secured by multifamily housing that is that is being rehabilitated with HOME funds, it must state its refinancing guidelines required under § 92.206(b). The guidelines shall describe the conditions under which the PJ will refinance existing debt. At a minimum these guidelines must:**
 - a. **Demonstrate that rehabilitation is the primary eligible activity and ensure that this requirement is met by establishing a minimum level of rehabilitation per unit or a required ratio between rehabilitation and refinancing.**
 - b. **Require a review of management practices to demonstrate that disinvestments in the property has not occurred; that the long-term needs of the project can be met; and that the feasibility of serving the targeted population over an extended affordability period can be demonstrated.**
 - c. **State whether the new investment is being made to maintain current affordable units, create additional affordable units, or both.**
 - d. **Specify the required period of affordability, whether it is the minimum 15 years or longer.**
 - e. **Specify whether the investment of HOME funds may be jurisdiction-wide or limited to a specific geographic area, such as a neighborhood identified in a neighborhood revitalization strategy under 24 CFR 91.215(e)(2) or a Federally designated Empowerment Zone or Enterprise Community.**
 - f. **State that HOME funds cannot be used to refinance multifamily loans made or insured by any federal program, including CDBG.**

Sonoma County will not use HOME funds to refinance existing debt secured by multifamily housing that is being rehabilitated with HOME funds.

4. **If the PJ is going to receive American Dream Down payment Initiative (ADDI) funds, please complete the following narratives:**
 - a. **Describe the planned use of the ADDI funds.**

Sonoma County did not receive ADDI funds in FY 09-10. Sonoma County uses ADDI funds received to date to provide purchase financing to eligible first-time homebuyers. The ADDI loans will provide down payment and closing cost assistance. Given the limited funding available for ADDI the County will fold the ADDI program into the County's existing homeownership programs.

- b. **Describe the PJ's plan for conducting targeted outreach to residents and tenants of public housing and manufactured housing and to other families assisted by public housing agencies, for the purposes of ensuring that the ADDI funds are used to provide down payment assistance for such residents, tenants, and families.**

Sonoma County owns no public housing. The County will work with the Sonoma County Housing Authority to conduct outreach to Housing Choice Voucher holders. A focus of the outreach will be the families participating in the County's Family Self Sufficiency (FSS) program who have established as a goal the purchase of their first homes.

- c. **Describe the actions to be taken to ensure the suitability of families receiving ADDI funds to undertake and maintain homeownership, such as provision of housing counseling to homebuyers.**

Two options are available to Sonoma County to provide homeownership counseling to prospective buyers who will receive ADDI purchase assistance. The County will rely upon the FSS program's counseling program and/or work with one or more outside agencies to provide the counseling.

HOMELESS**Specific Homeless Prevention Elements**

*Please also refer to the Homeless Needs Table in the Needs.xls workbook.

Error! Reference source not found.Action Plan Special Needs response:

- 1. Sources of Funds—Identify the private and public resources that the jurisdiction expects to receive during the next year to address homeless needs and to prevent homelessness. These include the McKinney-Vento Homeless Assistance Act programs, other special federal, state and local and private funds targeted to homeless individuals and families with children, especially the chronically homeless, the HUD formula programs, and any publicly-owned land or property. Please describe, briefly, the jurisdiction’s plan for the investment and use of funds directed toward homelessness.**

The Sonoma County Community Development Commission will receive \$87,647 in McKinney-Vento Homeless Assistance Act funds from the Emergency Shelter Grant (ESG) program during FY 09-10. The proposed expenditure of these funds is detailed in the accompanying table entitled Fiscal Year 2009-2010 Action Plan Funding Priorities. In addition, the locally adopted CDBG policies prioritize the use of public services CDBG funds for homeless prevention and homeless services and this prioritization for FY09-10 is likewise detailed in the accompanying table. The prioritization and use of CDBG and ESG funds is closely integrated with the Sonoma County Continuum of Care Plan and the associated local planning process resulting in material resources directed to programs serving chronically homeless individuals.

The Sonoma County Community Development Commission is the lead agency in the county Continuum of Care planning process. The Commission and the cities of Petaluma and Santa Rosa work together with over 100 representatives of homeless service providers, housing developers, and other community organizations and interested citizens (collectively known as the Continuum of Care Planning Group) to develop and implement the Sonoma County Continuum of Care Plan. The Continuum of Care Plan, and all information included in the discussions about homelessness throughout this Consolidated Plan, reflect the demographics, needs and available shelter, housing and services in all three HUD entitlement jurisdictions covering all geographic areas of Sonoma County. Agencies participating in the Continuum of Care Planning Group are successful in obtaining awards of McKinney-Vento Continuum of Care funds typically in the range of \$1,750,000 to \$2,000,000 annually.

In early 2002, the Sonoma County Board of Supervisors prioritized the establishment of a new homeless shelter, resulting in the County purchasing and renovating the Russell Avenue Shelter that opened in late 2003. The capital and operating cost of this successful shelter program is funded with County general funds. The current operational budget is approximately \$250,000 per year. The Russell Avenue shelter operator, Catholic Charities, also operates several other major homeless programs in the county and is highly effective in raising private charitable contributions to augment public funds in support of these, and other, programs. The County also provided the land, for \$1.00 per year, for the Chanate Women’s Emergency Shelter, Sloan House, that opened in February 2006, and has also made the commitment to provide up to \$100,000 per year from the Sonoma County General Fund, or other sources, for the cost of operation of the Samuel Jones Hall emergency shelter that opened in late 2005.

2. Homelessness—In a narrative, describe how the action plan will address the specific objectives of the Strategic Plan and, ultimately, the priority needs identified. Please also identify potential obstacles to completing these action steps.

The overarching homelessness goal in the 2005-2010 Strategic Plan is: To promote new and existing day centers, emergency shelters, transitional housing facilities and services that will coordinate and improve the continuum of care system for homeless residents of Sonoma County. Barriers to achieving this broad goal include scarcity of resources, community acceptance of homeless facilities and programs, and the possibility that, due to socio-economic trends, the incidence of homelessness may grow at a rate greater than the growth of prevention and intervention services.

The specific goal and objectives to address homelessness in Sonoma County are listed in the Executive Summary and a brief description of each project funded in FY 2009-2010, the funding amount and identification of the objectives achieved by the project are included in the Homeless Prevention and Homeless Services Priority Funding section of FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

3. Chronic homelessness—The jurisdiction must describe the specific planned action steps it will take over the next year aimed at eliminating chronic homelessness by 2012. Again, please identify barriers to achieving this.

The Sonoma County Community Development Commission and the cities of Petaluma and Santa Rosa jointly comprise the Lead Agency for the Sonoma County Continuum of Care planning process. Comprised of the three HUD entitlement jurisdictions in the County directly funded by HUD, the joint Lead Agency ensures that the Continuum of Care planning process results in Continuum of Care annual funding submittals compatible with their Consolidated Plans and Housing Authority Agency Plans, as well as with local Housing Elements and related policies, so that the Continuum of Care planning can be coordinated with each jurisdiction's other efforts in the areas of affordable housing and homelessness.

The Continuum of Care Steering Committee and the larger Continuum of Care Planning Group (CCPG) establishes specific Action Steps for addressing chronic homelessness as part of the annual Continuum of Care planning process. A full copy of the Board of Supervisors approved *A Roof Over Every Head: Sonoma County's 10-Year Action Plan* and associated documents can be viewed and downloaded from the Sonoma County Community Development Commission's website at www.sonoma-county.org/cdc.

Specific to FY 09-10 activities, the County's commitment to tenant-based rental assistance for homeless people is maintained through HOME funding at \$463,905 and through maintaining, and expanding where possible, the Shelter Plus Care programs. Primary barriers to addressing the needs of chronically homeless individuals mirror those of serving homeless people in general, namely, community acceptance of facilities and programs and the scarcity of resources.

4. Homelessness Prevention—The jurisdiction must describe its planned action steps over the next year to address the individual and families with children at imminent risk of becoming homeless.

The County, cities and local nonprofit agencies offer a range of programs that provide financial and other assistance to those who are at-risk of becoming homeless due to financial emergencies or loss of existing dwelling units through inaccessibility by persons with mobility impairments, natural disasters or unabated deterioration. In addition to these specific prevention programs, many of the supportive services detailed in the Homeless Inventory section of the Strategic Plan are available to non-homeless persons who have special needs and who may be at risk of homelessness. Furthermore, most of the listed services provided in conjunction with the emergency shelter, transitional housing and supportive programs discussed in the previous three

questions function to prevent a continuation or recurrence of homelessness by working to address the underlying problems that initially led the individual or family to become homeless. All of these services and programs are detailed in the charts included in the Homeless Inventory section of the Strategic Plan and will not be repeated here.

The specific actions and funding levels for FY 09-10 are detailed in questions 1,2 & 3 above and in the accompanying Fiscal Year 2009-2010 Action Plan Funding Priorities table.

5. Discharge Coordination Policy—Explain planned activities to implement a cohesive, community-wide Discharge Coordination Policy, and how, in the coming year, the community will move toward such a policy.

The Sonoma County Board of Supervisors endorsed the 10-year action plan for addressing homelessness entitled *A Roof Over Every Head: Sonoma County's 10-Year Homeless Action Plan* on February 27, 2007. This plan was drafted by the Continuum of Care Planning Group and functions as the principle blueprint for coordinating and prioritizing local actions to address homelessness.

One of the four guiding principles upon which the plan is established is that *“Preventing homelessness is the most cost-effective approach to reducing homelessness. All health and social service programs should be involved in preventing homelessness.”* One of the two key steps under that guiding principle, as articulated in the plan, is to: *“Reduce the number of people becoming homeless upon discharge from public institutions by 80%, by developing and implementing protocols to assist people in finding housing when discharged from public institutions (jails, prisons, mental health institutions, hospitals, and foster care) under the leadership of a Homeless Prevention Council.”* Under that goal are eleven action steps to take to achieve this goal.

Thus, the Board of Supervisor’s endorsement of the 10-year plan has elevated the issue of discharge policies and homelessness to a high priority and as a focus item for senior staff in various Sonoma County departments and agencies. Currently, the existing Health and Human Services Coordinating Committee (HHSCC) is the organization responsible for addressing this issue area. The HHSCC consists of department heads and other senior staff of all county departments and agencies with program responsibilities in the area of health and human services, broadly defined.

During a March 2007, HHSCC meeting, the Continuum of Care Coordinator facilitated a discussion on the issue of discharge policies as related to the 10-year plan, the Continuum of Care and homelessness in general. Subsequent to that meeting, goals and work plans were established for the Continuum of Care Coordinator and key staff. On April 3, 2008, deputy directors from Health Services and Human Services met with the Continuum of Care Coordinator to update one another on progress and to plan next steps. It is expected that during fiscal year 2009-2010, formalizing discharge policies into a written form consistent with this goal of reducing discharges into homelessness will be largely completed.

Emergency Shelter Grants (ESG)

Error! Reference source not found.Action Plan ESG response:

(States only) Describe the process for awarding grants to State recipients, and a description of how the allocation will be made available to units of local government.

Not applicable to the Urban County.

COMMUNITY DEVELOPMENT

Community Development

*Please also refer to the Community Development Table in the Needs.xls workbook.

Error! Reference source not found. Action Plan Community Development response:

1. **Identify the jurisdiction's priority non-housing community development needs eligible for assistance by CDBG eligibility category specified in the Community Development Needs Table (formerly Table 2B), public facilities, public improvements, public services and economic development.**

The Year 5 Goals of the *Community Development Needs* table included with the 2005 Consolidated Plan delineates the projected annual accomplishments in FY 2009-2010 for each specific matrix code, providing a more exact depiction of the accomplishments listed under the more generic matrix codes defining the five-year goals. A brief description of each project funded in FY 2009-2010, the funding amount and identification of the objectives achieved by the project are included in the Non-Housing Community Development section of FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

2. **Identify specific long-term and short-term community development objectives (including economic development activities that create jobs), developed in accordance with the statutory goals described in section 24 CFR 91.1 and the primary objective of the CDBG program to provide decent housing and a suitable living environment and expand economic opportunities, principally for low- and moderate-income persons.**

*Note: Each specific objective developed to address a priority need, must be identified by number and contain proposed accomplishments, the time period (i.e., one, two, three, or more years), and annual program year numeric goals the jurisdiction hopes to achieve in quantitative terms, or in other measurable terms as identified and defined by the jurisdiction.

The specific goal and objectives to address non-housing community development needs are listed in the Executive Summary and a brief description of each project funded, the funding amount and identification of the objectives achieved by the project are included in the Non-Housing Community Development Activities Priority Funding section of FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

Antipoverty Strategy

Error! Reference source not found. Action Plan Antipoverty Strategy response:

1. **Describe the actions that will take place during the next year to reduce the number of poverty level families.**

The County will work to reduce the number of poverty-level families by targeting CDBG, HOME, ESG and local funds to projects that will provide services to foster self-sufficiency, in conjunction with the provision of housing, shelter and other public facilities. The overriding goal of the County is to provide the environment and tools necessary to enable all County residents to realize a greater degree of economic stability. While the County does not have the resources to directly elevate the incomes of poverty level persons, it will continue to act to reduce the housing costs for these individuals. The Sonoma County Community Development Commission (SCCDC) implements the Section 8 Housing Choice Voucher Program, HOME-funded Tenant Based Rental Assistance Program, Shelter Plus Care Program, and Mobile Home Space Rent Assistance Program to serve this purpose. The SCCDC will also make CDBG funding available to municipalities and nonprofit agencies to operate programs that work to reduce the number of persons living below the poverty level through economic development and employment training activities such as family self-sufficiency programs, various homeless services, including both homeless prevention and transitional housing programs. The County's involvement in the Continuum of Care process, Section 3 compliance, SonomaWORKS, Job Link and the actions of the local Workforce Investment Board will all foster greater economic opportunities for the low- and moderate-income residents of Sonoma County.

NON-HOMELESS SPECIAL NEEDS HOUSING

Non-homeless Special Needs (91.220 (c) and (e))

*Please also refer to the Non-homeless Special Needs Table in the Needs.xls workbook.

Error! Reference source not found.Action Plan Specific Objectives response:

1. Describe the priorities and specific objectives the jurisdiction hopes to achieve for the period covered by the Action Plan.

Many non-homeless persons need supportive housing and services to enable them to live independently and to avoid homelessness or institutionalization. This is particularly true for the elderly, persons with physical, mental or developmental disabilities, persons with HIV/AIDS, victims of domestic violence, parolees, veterans, teens living on their own, children leaving group homes or aging out of foster care, people transitioning from welfare to work, farm workers, non-English speakers, illiterate adults, and substance abusers. The supportive housing and services required by these special needs subpopulations often overlap the housing needs and supportive services identified and addressed in other areas throughout the 2005 Consolidated Plan. As such, the County does not identify specific priorities and objectives for non-homeless special needs populations, but rather includes them within a broad-based array of objectives in the *Housing, Homeless, and Community Development* sections of the Consolidated Plan. A listing of these projects is shown in the FY 2009-2010 Action Plan Funding Priorities chart included in *Year 5 Additional Files* section of this Action Plan.

2. Describe how Federal, State, and local public and private sector resources that are reasonably expected to be available will be used to address identified needs for the period covered by this Action Plan.

The Urban County will administer housing, homeless, and non-housing community development programs, either directly through the Sonoma County Community Development Commission or through funding provided to other governmental or nonprofit agencies, that will benefit low/moderate-income households, including households with one or more members who have special needs. Federal, State and local public and private sector resources that are expected to be available for these purposes are detailed in the *Specific Housing Needs* section of the 2005 Consolidated Plan.

Housing Opportunities for People with AIDS
